EXPERIENCE

July 2021 – October 2022
TIBCO Spotfire Consultant • BinarySeason (Portugal - Remote)
Development of interactive analysis dashboards with TIBCO Spotfire platform, for the pharma industry, mainly using IronPython, HTML and javascript. Additionally, some simple SQL queries for data retrieval. Gathered requirements and implemented a set of dashboards for the different stakeholder groups within the client company accordingly.

April 2020 – December 2020
Sr Software Development Engineer • PerkinElmer (Tres Cantos, Madrid)
Research and Development of analytical applications for High Content Screening and Drug Discovery with the TIBCO Spotfire API (C# and R). Frequently collaborated with QA team to perform BDD testing. Higher responsibility in the lifecycle of applications playing a wider role in the development of the same.

August 2016 – April 2020
Software Development Engineer • PerkinElmer (Tres Cantos, Madrid)
Coming from a 6-month internship in the company, integrated the R&D team for the implementation of R analytical methods for applications under the TIBCO Spotfire platform. Additionally proof of concept creation was performed using IronPython. Initial contributions using the C# API and regular participation in code reviews and contact with QA testing.
